PROFESSIONAL SUMMARY

Full Stack Developer who builds and operates the core business systems of a multi-brand D2C beauty company (Skinlyfe and Prepare). Experienced in ERP development, Shopee and TikTok Shop API integration, Meta Ads reporting automation, WhatsApp integrations, conversion-focused landing pages and Linux server administration. Known for data accuracy: every report is reconciled against the marketplace or ad platform until the difference is zero.

WORK EXPERIENCE

Full Stack Developer Jul 2026 – Present

Montera Group (Skinlyfe & Prepare) · Full-time

- Developed and maintain the company ERP (CodeIgniter, MySQL), synchronizing Shopee and TikTok Shop orders, waybills, payouts and stock in real time, validated order by order against the marketplace APIs.
- Built live sales dashboards that match Seller Center figures exactly, and net-profit reporting that combines COGS, platform fees, payouts and ad spend.
- Automated daily reporting for 40+ Meta (CPAS) ad accounts using the Graph API and Google Apps Script, with two-way Google Sheets sync, automatic monthly rollover and TikTok Ads validation.
- Delivered HR and attendance features: face-verified clock-in, office Wi-Fi presence check, attendance map, and leave and schedule rules.
- Built a warehouse module with barcode scan stations, 100×150 shipping labels, waybill tracking and problem-parcel alerts.
- Launched product landing pages and a link-in-bio site on dedicated subdomains with SSL and Meta Pixel conversion events.
- Built an affiliate WhatsApp inbox (Node.js, Baileys) that consolidates six team numbers into one web interface.
- Administer the production Ubuntu VPS: Apache, UFW and fail2ban, security patching, and encrypted daily off-site backups.

IT Trainer (Volunteer) Jan 2025 – Apr 2025

5 schools in Jakarta & Tangerang · 163+ students trained in 3-day intensive programs

- **El-Rasyad Jakarta** (Jan 2025, 50+ students): taught responsive portfolio websites with HTML, CSS and JavaScript.
- **Qurrota A'yun Jakarta Timur** (Jan 2025, 30+ students): taught card-based UI, responsive grids and typography.
- **Al Anwar Bina Mulia** (30+ students): delivered an introductory web development class for vocational students.
- **SMK Islam Insan Mulia** (Jan 2025): delivered industry-aligned vocational web development.
- **SMK Hiro Tangerang** (Apr 2025, 50+ students): ran a project-based bootcamp to build and deploy web apps.
